TITLES AND SUBJECTS

Acute axonal form of Guillain-Barré polyneuropathy (Feasby *et al.*), 1115
Afferent pathway and posterior column lesions, sensory effects in man (Nathan *et al.*), 1003
Agnosia, auditory, related to bilateral subcortical lesions (Motomura *et al.*), 379
Amnesia, transient global, triggered by mild head trauma (Haas and Ross), 251
Anomia for animals in a child (Temple), 1225
Anterior choroidal artery, infarction in the territory of (Decroix *et al.*), 1071
Anterior horn cell loss, focal, in cervical cord in motor neuron disease (Swash *et al.*), 939
Aphasia, subcortical, possibly caused by cortical hypoperfusion (Skyhøj Olsen *et al.*), 393
Aphasia-associated brain lesions, fifteen years following penetrating head injury (Ludlow *et al.*), 55
Atrial demand pacing to protect against vagal overactivity in sympathetic autonomic neuropathy (Bannister *et al.*), 345
Audiogenic startle reflex of man and its relationship to startle syndromes: a review (Wilkins *et al.*), 561
Auditory agnosia: analysis of a case with bilateral subcortical lesions (Motomura *et al.*), 379
Autonomic neuropathy, sympathetic, atrial demand pacing in, (Bannister *et al.*), 345
Autosomal recessive distal muscular dystrophy as a new type of progressive muscular dystrophy: seventeen cases in eight families including an autopsied case (Miyoshi *et al.*), 31
Axonal transport system in rats affected by doxorubicin (Sidenius), 885

Blood flow and volume in brain studied by PET in hydrocephalus patients (Brooks *et al.*), 613
Bradykinesia of Parkinson's disease, changes in sensorimotor functions associated with (Warabi *et al.*), 1209
Brain lesions associated with nonfluent aphasia fifteen years following penetrating head injury (Ludlow *et al.*), 55

Cardioskeletal myopathy, dominantly inherited (Byrne *et al.*), 523
Caudate-putamen, motor cortex and nigrostriatal dopamine contributions to skilled forelimb use in the rat (Whishaw *et al.*), 1209
Causalgia mechanisms, role of central and sympathetic nervous systems (Schott), 717
Cerebellar atrophy, late cortical, clinical and oculographic features of (Baloh *et al.*), 159
Cerebellar haemangioblastoma and von Hippel-Lindau disease (Huson *et al.*), 1297
Cerebral blood flow in the awake beagle (Tabata *et al.*), 771
Cerebral cortex energy metabolism affected by thalamic stroke (Baron *et al.*), 1243
Cerebral lesion, laterality of related to unilateral spatial neglect mechanisms (Gainotti *et al.*), 599
Cerebral oxygen metabolism, blood flow and blood volume studied in hydrocephalus patients by PET (Brooks *et al.*), 613
Cervical spondylotic myelopathy studied by computer-assisted myelography (Yu *et al.*), 259
Changes in sensorimotor functions associated with the degree of bradykinesia of Parkinson's disease (Warabi *et al.*), 1209
Childhood neuronal degeneration with liver disease (Harding *et al.*), 181
Choroidal artery, anterior, infarction in the territory of (Decroix *et al.*), 1071
Clinical features of mitochondrial myopathy (Petty *et al.*), 915
Colour and luminance vision in human optic neuritis (Mullen and Plant), 1
Components of visual attention: alterations in response pattern to visual stimuli following parietal lobe infarction (Baynes *et al.*), 99
Computer-assisted myelography in cervical spondylotic myelopathy and radiculopathy: clinical correlations and pathogenetic mechanisms (Yu *et al.*), 259
Contributions of motor cortex, nigrostriatal dopamine and caudate-putamen to skilled forelimb use in the rat (Whishaw *et al.*), 805
Corpus callosum transection in children (Lassonde *et al.*), 953
Cortical cerebellar atrophy, late, clinical and oculographic features of (Baloh *et al.*), 159
Cortical hypoperfusion as a possible cause of 'subcortical aphasia' (Skyhøj Olsen *et al.*), 393
Cranial nerve ischaemic arterial syndromes: a review (Lapresle and Lasjaunias), 207
Crossed cerebellar diaschisis: further studies (Pantano *et al.*), 677

Dementia subtypes, electrophysiological differences between (Goodin and Aminoff), 1103
Demyelination in Semliki Forest virus-infected mice and enhanced retinal and optic nerve excitability (Tansey *et al.*), 15
Depression after stroke and lesion location (Sinyor *et al.*), 537
Depression in Parkinson's disease (Taylor *et al.*), 279
Development and pathogenesis of the sensory neuropathy in the mutant rat *mf.* (Chimelli and Scaravilli), 629
Diaschisis, crossed cerebellar (Pantano *et al.*), 677
Distal muscular dystrophy, autosomal recessive (Miyoshi *et al.*), 31

Dominantly inherited cardioskeletal myopathy with lysosomal glycogen storage and normal acid maltase levels (Byrne *et al.*), 523
Dopamine and neuropeptides in MPTP-treated marmosets (Allen *et al.*), 143
Doxorubicin, effect on components of the axonal transport system in rats (Sidenius), 885
Dystrophy, myotonic, a reassessment by conventional and more recently introduced neurophysiological techniques (Jamal *et al.*), 1279
Dystrophy, myotonic, associated with hereditary motor and sensory neuropathy (Spaans *et al.*), 1149

Effect of doxorubicin on slow and fast components of the axonal transport system in rats (Sidenius), 885
Effect of protein calorie malnutrition on peripheral nerves: a clinical, electrophysiological and histopathological study (Chopra *et al.*), 307
Effects of early and late transection of the corpus callosum in children: a study of tactile and tactuomotor transfer and integration (Lassonde *et al.*), 953
Effects of lateralized frontal lesions upon mood regulation (Grafman *et al.*), 1127
Effects of thalamic stroke on energy metabolism of the cerebral cortex (Baron *et al.*), 1243
Electrophysiological differences between subtypes of dementia (Goodin and Aminoff), 1103
Electroretinogram, pattern-evoked, in optic neuritis (Plant *et al.*), 469
Emotional disorder in multiple sclerosis (Rabins *et al.*), 585
Energy metabolism of the cerebral cortex affected by thalamic stroke (Baron *et al.*), 1243
Enhanced retinal and optic nerve excitability associated with demyelination in mice infected with Semliki Forest virus (Tansey *et al.*), 15
Epilepsy, myoclonus, in two brothers (Logigian *et al.*), 411
Evoked potentials, sensory, in Wilson's disease (Chu), 491

Face recognition and lipreading: a neurological dissociation (Campbell *et al.*), 509
Finger, interphalangeal joint proprioception (Clark *et al.*), 1195
Focal loss of anterior horn cells in the cervical cord in motor neuron disease (Swash *et al.*), 939
Forelimb, skilled use in the rat (Whishaw *et al.*), 805
Frontal lobe dysfunction in Parkinson's disease: the cortical focus of neostriatal outflow (Taylor *et al.*), 845

Glial cells, human, in tissue culture (Kennedy and Fok-Seang), 1261
Guillain-Barré polyneuropathy, an acute axonal form (Feasby *et al.*), 1115

Haemangioblastoma, cerebellar, and von Hippel-Lindau disease (Huson *et al.*), 1297
Hemispatial and limb motor neglect with hypometria (Meador *et al.*), 293
Hemisphere activity coordinated subcortically in commissurotomized patients (Sergent), 357
Hereditary motor and sensory neuropathy type II: clinicopathological study of a family (Berciano *et al.*), 897
Hydrocephalus: cerebral oxygen metabolism, blood flow and blood volume studied with PET in patients with, (Brooks *et al.*), 613
Hypometria with hemispatial and limb motor neglect (Meador *et al.*), 293
Hypoperfusion, cortical, as a possible cause of subcortical aphasia (Skyhøj Olsen *et al.*), 393
Hypotonia: an erroneous clinical concept? (van der Meché and van Gijn), 1169

Infarction in the territory of the anterior choroidal artery: a clinical and computerized study of 16 cases (Decroix *et al.*), 1071
Infarcts of both inferior parietal lobules with impairment of visually guided eye movements, peripheral visual inattention and optic ataxia (Pierrot-Deseilligny *et al.*), 81
Ischaemic arterial syndromes, cranial nerve (Lapresle and Lasjaunias), 207
Isoniazid neuropathy, experimental, in the rat (Beuche and Friede), 759

Late cortical cerebellar atrophy: clinical and oculographic features (Baloh *et al.*), 159
Lateralized frontal lesions affecting mood (Grafman *et al.*),
Lipidosis induced by perhexiline in the dark Agouti rat (Meier *et al.*), 649
Lipreading and face recognition: a neurological dissociation (Campbell *et al.*), 509
Luminance and colour vision in human optic neuritis (Mullen and Plant), 1
Lysosomal glycogen storage and normal acid maltase levels in inherited cardioskeletal myopathy (Byrne *et al.*), 523

McArdle's disease, second wind phenomenon in (Braakhekke *et al.*), 1087
Malnutrition, protein calorie, effect on peripheral nerves (Chopra *et al.*), 307
Mechanisms of causalgia and related clinical conditions: the role of the central and of the sympathetic nervous systems (Schott), 717
Mechanisms of unilateral spatial neglect in relation to laterality of cerebral lesions (Gainotti *et al.*), 599
Memory, pictorial, in stroke patients (Zaidel), 547
Memory for scenes in stroke patients: hemisphere processing of semantic organization in pictures (Zaidel), 547
Mitochondrial myopathy, clinical features of (Petty *et al.*), 915
Mood regulation affected by lateralized frontal lesions (Grafman *et al.*), 1127
Motor cortex, nigrostriatal dopamine and caudate-putamen contributions to skilled forelimb use in the rat (Whishaw *et al.*), 805
Motor neglect with hypometria (Meador *et al.*), 293
Motor neuron disease, focal anterior horn cell loss in cervical cord (Swash *et al.*), 939

Movement deficits caused by hyperexcitable stretch reflexes in spastic humans (Corcos *et al.*), 1043
Movement preparation in Parkinson's disease (Stelmach *et al.*), 1179
MPTP treatment effects in the marmoset (Allen *et al.*), 143
Multiple sclerosis and emotional disorder (Rabins *et al.*), 585
Multiple sclerosis patients and HLA-DR matched controls in viral infection study (Compston *et al.*), 325
Multiple sclerosis, suppressor T Cells in family members of patients with (Hughes *et al.*), 969
Muscular dystrophy, autosomal recessive distal (Miyoshi *et al.*), 31
Myelography, computer-assisted, in cervical spondylosis (Yu *et al.*), 259
Myelopathy, cervical spondylotic, studied by computer-assisted myelography (Yu *et al.*), 259
Myoclonus epilepsy in two brothers: clinical features and neuropathology of a unique syndrome (Logigian *et al.*), 411
Myoclonus, oculopalatal (Nakada and Kwee), 431
Myopathy, cardioskeletal (Byrne *et al.*), 523
Myopathy, mitochondrial, clinical features of (Petty *et al.*), 915
Myotonic dystrophy: a reassessment by conventional and more recently introduced neurophysiological techniques (Jamal *et al.*), 1279
Myotonic dystrophy associated with hereditary motor and sensory neuropathy (Spaans *et al.*), 1149

Neglect, motor, with hypometria (Meador *et al.*), 293
Neostriatal outflow in Parkinson's disease (Taylor *et al.*), 845
Neuronal degeneration, progressive, of childhood with liver disease (Harding *et al.*), 181
Neuropathy, hereditary motor and sensory, associated with myotonic dystrophy (Spaans *et al.*), 1149
Neuropathy, hereditary motor and sensory type II, (Berciano *et al.*), 897
Neuropeptides and dopamine in the marmoset: effect of treatment with 1-methyl-4-phenyl-1, 2, 3, 6 tetrahydropyridine (MPTP): an animal model for Parkinson's disease? (Allen *et al.*), 143
Neurotoxicity, perhexilene-induced, in the dark Agouti rat (Meier *et al.*), 649
Nigrostriatal dopamine, motor cortex and caudate-putamen contributions to skilled forelimb use in the rat (Whishaw *et al.*), 805

Observations on the genesis of the stretch reflex in Parkinson's disease (Cody *et al.*), 229
Oculopalatal myoclonus (Nakada and Kwee), 431
Optic ataxia following bilateral inferior parietal infarction (Pierrot-Deseilligny *et al.*), 81
Optic nerve and retina, enhanced excitability in, associated with demyelination in mice infected with Semliki Forest virus (Tansey *et al.*), 15
Optic neuritis, colour and luminance vision in (Mullen and Plant), 1
Optic neuritis and pattern-evoked electroretinogram (Plant *et al.*), 469
Origin of short-latency somatosensory evoked potentials to median nerve stimulation in the cat: comparison of the recording montages and effect of laminectomy (Kaji *et al.*), 443

Parietal lobe infarction, with impairment of visually guided eye movements, visual inattention and optic ataxia (Pierrot-Deseilligny *et al.*), 81
Parkinsonian resting tremor, role of reflexes in (Rack and Ross), 115
Parkinson's disease and depression: a critical re-evaluation (Taylor *et al.*), 279
Parkinson's disease, frontal lobe dysfunction in (Taylor *et al.*), 845
Parkinson's disease, genesis of stretch reflex in (Cody *et al.*), 229
Parkinson's disease in the marmoset, MPTP-induced, neuropeptides and dopamine in (Allen *et al.*), 143
Parkinson's disease, movement preparation in (Stelmach *et al.*), 1179
Parkinson's disease, sensorimotor functions and degree of bradykinesia (Warabi *et al.*), 1209
Parkinson's disease, simultaneous movement performance in (Benecke *et al.*), 739
Parkinson's disease, visuospatial function in (Brown and Marsden), 987
Pattern evoked electroretinogram in optic neuritis: a combined psychophysical and electrophysiological study (Plant *et al.*), 469
Performance of simultaneous movements in patients with Parkinson's disease (Benecke *et al.*), 739
Perhexiline-induced lipidosis in the dark Agouti (DA) rat: an animal model of genetically determined neurotoxicity (Meier *et al.*), 649
Peripheral nerves affected by protein calorie malnutrition (Chopra *et al.*), 307
Polyneuropathy, Guillain-Barré, an acute axonal form of (Feasby *et al.*), 1115
Positron emission tomography studies in hydrocephalus patients (Brooks *et al.*), 613
Posterior column lesions, sensory effects in man (Nathan *et al.*), 1003
Poststroke depression and lesion location: an attempted replication (Sinyor *et al.*), 537
Progressive distal muscular dystrophy (Miyoshi *et al.*), 31
Progressive neuronal degeneration of childhood with liver disease: a pathological study (Harding *et al.*), 181
Proprioception with the interphalangeal joint of the index finger (Clark *et al.*), 1195
Protein calorie malnutrition, effect on peripheral nerves (Chopra *et al.*), 307

Radiculopathy, studied by computer-assisted myelography (Yu *et al.*), 259
Reflexes, role of in parkinsonian tremor (Rack and Ross), 115
Regional cerebral blood flow in awake beagles of different ages (Tabata *et al.*), 771
Remodelling of nerve structure in experimental isoniazid neuropathy in the rat (Beuche and Friede), 759

Retinal and optic nerve excitability associated with demyelination in mice infected with Semliki Forest virus (Tansey *et al.*), 15
Role of reflexes in the resting tremor of Parkinson's disease (Rack and Ross), 115

Second wind phenomenon in McArdle's disease (Braakhekke *et al.*), 1087
Sensorimotor functions in Parkinson's disease, changes associated with degree of bradykinesia (Warabi *et al.*), 1209
Sensory effects in man of lesions of the posterior columns and of some other afferent pathways (Nathan *et al.*), 1003
Sensory evoked potentials in Wilson's disease (Chu), 491
Sensory neuropathy in the mutant rat *mf* (Chimelli and Scaravilli), 629
Short-latency somatosensory evoked potentials to median nerve stimulation in the cat (Kaji *et al.*), 443
Simultaneous movement performance in Parkinson's disease (Benecke *et al.*), 739
Somatosensory evoked potentials to median nerve stimulation in the cat (Kaji *et al.*), 443
Spasticity, in humans, hyperexcitable stretch reflexes in, causing movement deficits (Corcos *et al.*), 1043
Spatial neglect, unilateral, mechanisms of, related to laterality of cerebral lesions (Gainotti *et al.*), 599
Spinal sympathetic output in man (Stjernberg *et al.*), 695
Startle reflex, audiogenic, related to startle syndromes (Wilkins *et al.*), 561
Startle syndromes related to the audiogenic startle reflex of man (Wilkins *et al.*), 561
Stretch reflex in Parkinson's disease (Cody *et al.*), 229
Stretch reflexes in spastic humans causing movement deficits (Corcos *et al.*), 1043
Stroke, thalamic, effects on cerebral cortex energy metabolism (Baron *et al.*), 1243
Stroke patients, pictorial memory in (Zaidel), 547
Structural brain correlates of emotional disorder in multiple sclerosis (Rabins *et al.*), 585
Studies on cerebral oxygen metabolism, blood flow, and blood volume in patients with hydrocephalus before and after surgical decompression using positron emission tomography (Brooks *et al.*), 613
Studies on the development, antigenic phenotype and function of human glial cells in tissue culture (Kennedy and Fok-Seang), 1261
Study of systematic visual perseveration involving central mechanisms (Blythe *et al.*), 661
'Subcortical aphasia' possibly caused by cortical hypoperfusion (Skyhøj Olsen *et al.*), 393
Subcortical coordination of hemisphere activity in commissurotomized patients (Sergent), 357
Suppressor T cells in family members of patients with multiple sclerosis (Hughes *et al.*), 969
Sympathetic activity in man after spinal cord injury: outflow to muscle below the lesion (Stjernberg *et al.*), 695
Sympathetic autonomic neuropathy, atrial demand pacing to protect against vagal overactivity in (Bannister *et al.*), 345

T cells, suppressor, in family members of patients with multiple sclerosis (Hughes *et al.*), 969
Tactile and tactuomotor transfer and integration after corpus callosum transection in children (Lassonde *et al.*), 953
Thalamic stroke, effects on cerebral cortex energy metabolism (Baron *et al.*), 1243
Transient global amnesia triggered by mild head trauma (Haas and Ross), 251

Vagal overactivity, protection against, by atrial demand pacing in sympathetic autonomic neuropathy (Bannister *et al.*), 345
Viral infection in patients with multiple sclerosis and HLA-DR matched controls (Compston *et al.*), 325
Virus-induced demyelination, enhanced retinal and optic nerve excitability in (Tansey *et al.*), 15
Vision, colour and luminance, in human optic neuritis (Mullen and Plant), 1
Visual attention components: alterations in response pattern to visual stimuli following parietal lobe infarction (Baynes *et al.*), 99
Visual inattention, peripheral, in bilateral inferior parietal infarction (Pierrot-Deseilligny *et al.*), 81
Visual perseveration (Blythe *et al.*), 661
Visuospatial function in Parkinson's disease (Brown and Marsden), 987
Von Hippel-Lindau disease and cerebellar haemangioblastoma (Huson *et al.*), 1297

Wilson's disease, sensory evoked potentials in (Chu), 491
